## Product Description

freezing and smooth precise orientation for high quality sectioning in histology, proenvironment

Incorporates a combination of motorized hand wheel movement and high precision motorized specimen feed, for high throughput histology labs. Powerful sectioning motor enable us to cut even the hard specimen easily. The smartly located feature keypad enables us to control the operation easily. Apart from other safety feature it also has an emergency stop button. **Salient Features** ● LCD Display to indicate section ● Alarm to indicate start/end of travel ● Motorized forward and backward at ● Adjustable specimen retraction ● Finger protection guard ● Section Counter ● Motorized sectioning with adjustable speed ● Spacious waste tray **Technical Specification** ● Section Thickness Setting Range: 0.5-100µm thickness, travel etc ● Trimming Thickness Setting Range:1-600µm ● Setting Values: 0.5-5µm increment step 0.5µm two different speeds ● 5µm-20µm increment step 1µm ● 20µm-60µm increment step 5µm ● 60µm-100µm increment step 10µm ● Minimum setting value :0.5µm ● Sectioning Speed: Adjustable
