Product Description

WATER STILL HEATER

It comprises of horizontal coil with a 3 KW chromi cutoff, highly efficient output of single dist safe to operate and

- Abundant Output of distilled water for Laboratory use
- pyrogen free output
- Distillate temperature 40° C which is safe for condenser.

Construction

- The stand is powder coated for long and rust free operation.
- The boiler and condenser are designed for high efficiency.
- Boiler is provided with Teflon Screw Cork for easy draining and cleaning of boiling chamber.
- Screw Threaded Connectors : These are provided for easy plumbing Et Installation to avoid any glassware breakage during assembly.
- For use on 220/240 V, 50/60Hz, Single Phase Supply.

Additional Optional Accessories (At Extra Cost)

- Gate Valve : Conserves cooling water wastage in case of power failure.
- Flow Switch : In-built safety feature for the equipment unit shut off in case of cooling water failure.

Water stills are care
purity pyrogen free
made from 3.3 exp.
horizontal type boi

threaded connectors for ease of Cleaning.

- Distillate temperature is approx. between 25° to 45°C which is ensured by an condenser.
- The stand is powder coated for rust free operation and lustrous appearance.
- The unit automatically switches off if water level in the boiler falls below heater.
- Cooling water from the condenser is re-circulated into the boiling chamber, hence saving energy.
- Drain Stop Cork is provided for easy cleaning and maintenance.
- Electrical Power: 220/240 V, 50/60Hz, Single Phase Supply. **Unique Feature:** This model is equipped with in-built water level sensor to protect the Glass parts in case of water failure or overheating and buzzer is provided when user attention is required

Technical Specification Conductivity 0.8 to 1 $\mu\text{S}/\text{cm}$

WATER STILL SHEATHED Still) Model Cap. (approx Cooling Wat 150 ltr/h, Po

Water stills are carefully designed to produce high purity pyrogen free distilled water. The unit is made from 3.3 exp. grade borosilicate glass, horizontal type boiler, stainless steel device, silica sheathed heating element, stand and clamps. It is suitable for use in the laboratory.

- Borosilicate construction with removable silica sheath and threaded connections.
- Distillate temperature is maintained at 45°C which is suitable for most laboratory applications.
- The stand is polished and lustrous and is made of stainless steel.
- The unit automatically shuts off the power in the boiler fan when the water level is low.

- Electrical Power: 220/240 V, 50/60HZ, Single Phase Supply. **Unique Feature:** This model is equipped with in-built water level sensor to protect the Glass parts in case of water failure or overheating and buzzer is provided when user attention is required

2.0 ltr/hr, C Consumption Rating 1.5

Water stills are carefully designed to produce high purity pyrogen free distilled water. The unit is made from 3.3 exp. rated stainless steel. It has a horizontal type boiler. The unit is a compact device, silica sheathed, and is mounted on a stand and clamps. It is designed for use in a laboratory.

- Borosilicate condenser with removable silica sheath and threaded connections
- Distillate temperature controlled at 45°C which is maintained by a thermostat
- The stand is polished and lustrous
- The unit automatically shuts off the boiler fan when the boiler fan is on
- Cooling water inlet and outlet into the boiling chamber
- Drain nozzle/Tap for cleaning and maintenance
- Electrical Power: 230V, 50Hz, 1 Phase

Unique Feature:

This model is equipped with a safety feature of water failure cut-off.
