comes to your multi-station heating magnetic stirrer requirements. But, the market is filled with sub-par quality products. There are obvious downsides of such products like low heating efficiency, no variable timer etc., but then there are less obvious disadvantages as well like a run-of-the-mill software setup which forces you to constantly stand by the side of the device to monitor its performance and input parameters from time to time. Multi-station magnetic stirrers are built to deliver the kind of performance that is promised. Our in-house R&D capabilities from design to extensive performance tests enhance the consistency of results and deliver unmatched performance. The software as well as the hardware of the device is geared towards optimizing your time and efforts by delivering exceptional performance and adequate safety. The exceptional heating efficiency & programmable pulse mode provides explicit commands for marvelous user experience.

AUTOMATIC TISSUE PROCESSOR Capacity 2ltr.

It is based on pin up timer for programming both delay and processing cycle and no need of cutting plier for programming. Technical Specification Number of stations : 12 Reagent Stations : 10 Paraffin Wax Bath(Station) : 2 Delay Start : upto 24hrs Safety Device : Yes Basket Rotation : Yes (4 R.P.M.) Supplied complete as above with 10 reagent beakers, 2 wax bath thermostatically controlled , 24 S.S Tissue Cassettes , 1 S.S. Basket, dust cover and operational manual.

Product Description

- Capacity: more than 300 liters.
- Double wall SS304 with glass wool insulation.
- Solid and plain bottom without electricals.
- Interior made out of polished Stainless Steel sheet 304 grade.
- Exterior made out of Stainless steel sheet 304 grade.
- Easily removable SS 304 trays with adjustable height in 25mm.
- Microprocessor based PID Digital Temperature controller LED display shows temperature & time.
- Door with heavy brass chrome plated hinges, quick magnetic locking facility.
- Inside Temperature ambient to +50°C to 250°C with accuracy $\pm 2^{\circ}\text{C}$.
- PT100 temperature sensor.
- Audio Visual Temperature for over/undershoot temperature, door opening and security purpose.
- Forced air circulation fan for uniform temperature.
- SS

Supplied With 3L capacity of paraffin tank.

It has independent heating zones that are controlled through a microprocessor. It has a large storage tank, the tank incorporates the filter which ensures continuous flow of paraffin from the tank. The flow of paraffin from the tank can be controlled manually or through foot switch. The heated operation platform and the forceps holder makes it easy to embed the tissues. The unit has a storage tank, preservation boxes, forceps holder, Paraffin nozzle whose Heating can be controlled through microprocessor and it can be programmed for the weekdays for both ON and OFF. Salient Features ● Large paraffin tank suitable for high throughput lab ● Illuminated Work Platform ● Easy to read and operate control panel ● Optional Cold Spot ● Mold warmer and cassette bath ● It is programmable for weekdays and each heating zones temperature can be individually set which makes it easy for the user ● Separate heating zones for storage tank, 2 preservation boxes, paraffin nozzle, forceps holder and work platform ● Excess Paraffin collecting tray collects the excess paraffin from different heating zones
