

Model No. S (approx) 4.0 Water Cons Power Ratin

Water stills are carefully designed to produce high purity pyrogen free distilled water. The unit is made from 3.3 exp. grade borosilicate glass. It has a horizontal type boiler with a built-in heating device, silica sheathed heater, and a stainless steel stand and clamps. It is a compact design.

- Borosilicate construction with removable silica sheathed heater and threaded connections.
- Distillate temperature is maintained at 45°C which is suitable for most laboratory applications.
- The stand is polished and lustrous.
- The unit automatically shuts off the power in the boiler fan.
- Cooling water is circulated into the boiling chamber.
- Drain nozzle/Tap for cleaning and maintenance.
- Electrical Power: 230V, 50Hz, Single Phase.

Unique Feature:
This model is equipped with a safety feature of water failure cut-off.

Product Description

Water stills are carefully designed to produce high purity pyrogen free distilled water. The water still made from 3.3 exp. borosilicate glass comprises of horizontal type boiler, condenser, constant level device, silica sheathed (Quartz) heater, along with stand and clamps. Features:

- Borosilicate condenser and boiler are fitted with a removable silica sheathed heater and screw threaded connectors for ease of Cleaning.
- Distillate temperature is approx. between 25° to 45°C which is ensured by an efficient
- The stand is powder coated for rust free operation and lustrous
- The unit automatically switches off if water level in the boiler falls below heater.
- Cooling water from the condenser is re-circulated into the boiling chamber, hence saving
- Drain nozzle/Tap on Stop Cork is provided for easy cleaning and maintenance.
- Electrical Power: 220/240 V, 50/60Hz, Single Phase

Unique Feature:

This model is equipped with in-built water level sensor to protect the Glass parts in case of water failure or overheating and buzzer is provided when user attention is required

**WATER STILL
SHEATHED

WATER STILL HEATER

It comprises of horizontal boiler with a 3 KW chromi cutoff, highly efficient output of single dist safe to operate and

- Abundant Output of distilled water for Laboratory use, pyrogen free
- Distillate temperature 40° C which is safe for condenser.

- The boiler and heater efficiency.

glassware breakage during assembly.

- For use on 220/240 V, 50/60Hz, Single Phase Supply.

Additional Optional Accessories (At Extra Cost)

- Gate Valve : Conserves cooling water wastage in case of power failure.
- FlowSwitch : In-built safety feature for the equipment unit shut off in case of cooling water failure.

Product Description

It comprises of horizontal borosilicate glass boiler fitted with a 3 KW chromium plated immersion heater with cutoff, highly efficient coil condenser ensures a reliable output of single distillate. It is designed for easy usage, safe to operate and low cost. **Features**

- Abundant Output : The still provides 4 ltr/hr of distilled water which is ideal for General Laboratory use and is capable for producing pyrogen free distillate.
- Distillate temperature is approx. between 25° - 40° C which is ensured by highly efficient condenser.

Distillate Quality
